### What is Flexbar

Flexbar is the Market Leading refrigeration system which allows you to create a stunning bespoke bar for any space or environment. The nature of the system means the possibilities are endless!

With a Range of temperatures, from freezers and refrigerated cabinets through to ambient storage and even heated areas. Flexbar delivers the perfect solution to every drink you would want to serve your customers.

- A complete answer for all drink serving and storage
- Choice of Anthracite, Glass, or Stainless Steel finish
- Choices of White or Coloured LED lighting
- Remote or Integral refrigeration unit
- Simple to assemble camlock design
- Easy to service 'cassette' system
- Central Electronic Locking
- 'Equip' your design to suit your bar

### Choose your Gamko Flexbar in 4 steps:

#### Step 1

Select a machine or evaporator unit and incorporate a Central Electronic Locking System if you want one.

#### Step 2

Connect refrigerated sections to the machine or evaporator unit and finish it with a set of end panels.

#### Step 3

Complete your bar by incorporating freezer or cooler units, corner pieces, unrefrigerated sections, counter tops, barista station and cocktail accessories.

#### Step 4

Send your sketch and wish list to us. Flexbar can also have a glass drawer and door fronts if required.

## Description

Refrigeration Units are at the heart of the Flexbar as they power the Storage segments, ensuring drinks are served cold, and operating the light and/or central electronic locking system.
