Mobile Bar - Your Bar On The Move

Using our tried and tested keg cooler technology, the mobile bar is a simple and efficient way to draft beer directly from a standalone unit. In no time at all you will be serving your customers a great chilled draft beer.

Choose from a single or double 50-litre keg capacity, along with the following fitted as standard:

- › A stainless steel top
- › Inset drip tray
- › Waste removal
- › Castors for total mobility

The unit means there's no longer a need to waste product, as you may have done before using a traditional keg stored in high temperature ambient conditions.

You also have the option to buy both beer and gas lines, along with gas cylinder restraining chains, couplers and beer line cleaning kit to complement the unit.

Just plug it into a power supply and you're ready to go!

Specifications

Product and Code	EXPUK16001 (single keg capacity)	EXPUK16002 (double keg capacity)
Dimensions	880 x 567 x 860/880	1350 x 567 x 860/880
